Parveen Ali, Julie McGarry (Eds.)

Domestic Violence in Health Contexts: A Guide for Healthcare Professions

- Explores the complexities of health care and is foremost healthcare focused
- Adopts a life span approach to IPV/DVA and captures the breadth of presentations encountered by healthcare professionals
- Utilises an accessible theory driven approach supported by practical guidance and research led practice

This book is taking a broad health focused approach towards Domestic Violence and Abuse (DVA). It is now well established that DVA exerts a significant and detrimental impact on the health and wellbeing of those who experience abuse. Universally healthcare professionals encounter individuals and families where DVA is or has taken place. This book is beneficial to a range of health care professionals through an exploration of theories and classifications of DVA, consideration of DVA in different contexts and consideration of the core issues surrounding working with individuals and families where DVA has been identified. It provides a much needed evidence based addition to the existing texts in this field in terms of the inclusion of real life scenarios, reflective exercises and pointers for further practice development. This book is a key point of reference for professionals working within a broad range of health care environments.
